WelcomeMessage

Dr. Eliaz Babaev

Ladies and Gentlemen, Dear Colleagues:

On behalf of the Organizing Committee, it is my great pleasure to invite you to attend the **International Conference on Wound Care, Tissue Repair and Regenerative Medicine**. The congress will be held in **London, UK** from **14th to 15th of June, 2018**. It will be a great moment bringing together all committed wound care specialists, nurses, doctors, scientists, Health Care, academics and Industry leaders, all professionals.

The theme of Wound Care Conference is ***Fostering Advances in Wound Healing and Tissue Regeneration Techniques*** will underpin the need for collaboration and cooperation of individuals from a wide range of wound care, tissue repair and regenerative medicine professional backgrounds.

The program of conference will offer delegates a wide range of innovative and interesting topics, with oral presentations, poster sessions and workshops. This congress will be an excellent opportunity to enhance and strengthen your knowledge and practice to improve wound care. During this congress you will also share knowledge and experience with colleagues from different countries.

Wound healing is a symbol of the peace and unity for the people, even who's countries are conflicting with each other. In a Wound Management Science and practice, we do not work alone, we work as a team, as a united team, we communicate, we have common goals: to heal the all wounds worldwide with no limitations. Teamwork is bringing out the best of everyone's strengths, the key in ensuring quality of Wound Care.

So join us in London, UK. We look forward to seeing you there!

Thanks,

Respectfully,

**Dr. Eliaz Babaev Ph.D, D.Sc.,
President/CEO
Arobella Medical LLC, USA**

Welcome Message

Dr. Ryan Moseley

Dear Colleagues

The Organizing Committee takes great pleasure in welcoming you to the “**International Conference on Wound Care, Tissue Repair and Regenerative Medicine**”, to be held on the **14th and 15th June 2018 in London, UK**.

As the Conference theme is based upon ***Fostering Advances in Wound Healing and Tissue Regeneration Techniques***, it will provide an excellent opportunity for members of the global wound care community to present, discover and discuss the latest developments in skin, wound care, nursing and tissue science research. Ultimately, the Conference wishes to present these advances, whilst increasing awareness of the current clinical problems associated with impaired and aberrant wound healing; and their future impact on world population.

Consequently, the Conference should hold a strong appeal to doctors, wound care specialists, nurses, scientists, company executives and other professionals within the fields of wound care, tissue repair and regeneration.

To facilitate such knowledge transfer and discussions, the Conference offers delegates an extensive scientific program, including numerous keynote presentations, plenary lectures, symposia, workshops and focus sessions with leading international experts in the field of wound management.

Wound Care Conferences 2018 is an ideal opportunity to reach a large assemblage of like-minded delegates and renowned speakers from around the world.

Wound Care 2018 is a unique forum to bring together worldwide distinguished academics in the field of Wound Care, Nursing, Infectious diseases, Public health, Tissue Repair, Nutrition, Skin diseases, Diabetes, Regenerative Medicine and more.

As a member of the Organizing Committee, it is my pleasure to welcome you to London. We wish you a pleasant stay and hop that you find this meeting intellectually and socially rewarding.

Looking forward to meeting you all in London!

Sincerely

Dr. Ryan Moseley BSc, PhD

Director & Reader in Tissue Repair

Cardiff Institute of Tissue Engineering & Repair (CITER), Cardiff University, UK

Welcome Message

Dr. Sandeep Shrivastava

Dear Colleagues

On behalf of Wound Care 2018 as well as the members of the Organizing and Program Committees, it is a great pleasure and an honor to extend to you a warm invitation to attend the “**International Conference on Wound Care, Tissue Repair and Regenerative Medicine**” which is slated on **June 14-15, 2018 at London, UK.**

The theme of Wound Care Conference is ***Fostering Advances in Wound Healing and Tissue Regeneration Techniques*** will underpin the need for collaboration and cooperation of individuals from a wide range of wound care, tissue repair and regenerative medicine professional backgrounds.

This year Wound Care Conference will offer an extensive scientific program including numerous key note presentations, plenary lectures, symposia, workshops and focus sessions with leading international experts in the field of wound management.

The summit is a rendezvous of the minds for researchers, academic lecturers and medical practitioners, nurses who are working towards more integrated approaches and effective responses to address community health needs to support public health practices. Wound Care Conferences 2018 is your best opportunity to reach the largest assemblage of participants around the world. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new drug developments and receive name recognition at this two days event. World renowned speakers, the most recent techniques, developments and the newest updates in wound care are hallmarks of this conference.

Wound Care 2018 is a unique forum to bring together worldwide distinguished academics in the field of Wound Care, Nursing, Infectious diseases, Public health, Tissue Repair, Nutrition, Skin diseases, Diabetes, Regenerative Medicine and more.

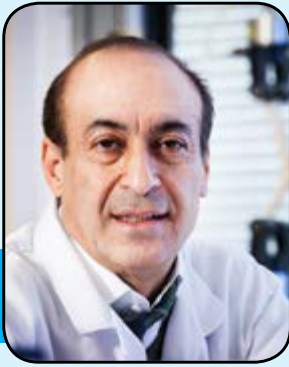

Looking forward to meet you at London, UK!

Sincerely

Dr. Sandeep Shrivastava MS; DNB; Ph.D

Director & Chairman

Datta Meghe Institute of Medical Sciences, India

Welcome Message

Dr. Alexander Seifalian

Dear Colleagues

On behalf of Wound Care 2018 as well as the members of the Organizing and Program Committees, it is a great pleasure and an honor to extend to you a warm invitation to attend the “**International Conference on Wound Care, Tissue Repair and Regenerative Medicine**” which is slated on **June 14-15, 2018 at London, UK.**

The theme of Wound Care Conference is ***Fostering Advances in Wound Healing and Tissue Regeneration Techniques***, as well as Nanotechnology-Driven Therapeutic Interventions will underpin the need for collaboration and cooperation of individuals from a wide range of wound care, tissue repair and regenerative medicine professional backgrounds.

This year Wound Care Conference will offer an extensive scientific program including numerous key note presentations, plenary lectures, symposia, workshops and focus sessions with leading international experts in the field of wound management.

The summit is a rendezvous of the minds for researchers, academic lecturers and medical practitioners, nurses who are working towards more integrated approaches and effective responses to address community health needs to support public health practices. Wound Care Conferences 2018 is your best opportunity to reach the largest assemblage of participants around the world. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new drug developments and receive name recognition at this two days event. World renowned speakers, the most recent techniques, developments and the newest updates in wound care are hallmarks of this conference.

Wound Care 2018 is a unique forum to bring together worldwide distinguished academics in the field of Wound Care, Nursing, Infectious diseases, Public health, Tissue Repair, Nutrition, Skin diseases, Diabetes, Nanotechnology, Smart material, Regenerative Medicine, drug and gene delivery and more.

Looking forward to meet you at London, UK!

Sincerely

Dr. Alexander Seifalian
Director and Professor

The London BioScience Innovation Centre, United Kingdom

Organizing Committee Members

Eliaz P. Babaev

President, Co-Founder & CEO
Arobella Medical LLC
USA

Wei Li

Director & Professor
USC Keck School of Medicine
USA

Ryan Moseley

Director & Reader (CITER)
Cardiff University
UK Medical Center
USA

Alexander Seifalian

Director and Professor
The London BioScience
Innovation Centre, UK

Christine Moffatt

Professor
University of
Nottingham, UK

Sandeep Shrivastava

Director & Chairman
Datta Meghe Institute of
Medical Sciences, India

James Wilcox

President
The Wound Care
Experts LLC, USA

Jasmina Begic
President
Association for Wound
Management
Bosnia and Herzegovina

Shaik O. Rahaman
Assistant Professor
University of Maryland
USA

Mogan Naidu
Founding Chairman
Malaysian Diabetic Limb
Salvaging Society
Malaysia

Sadanori Akita
Professor-in-Chief
Fukuoka University
Japan

Laurent Chabal
Past Vice-President
Swiss Association
of Wound Care
Switzerland

Alina Sionkowska
Professor
Nicolaus Copernicus
University, Poland

Lydia Corum
Wound Clinic Manager
National Institute of Health,
USA

Keynote Speakers

Title: Basics of advanced ultrasound wound and skin care: Technologies, devices, science and clinical outcomes

Dr. Eliaz P. Babaev, President, Co-Founder and CEO, Arobella Medical LLC, USA

Title: Repurposing ingenol mebutate as a novel pharmaceutical therapy for normal and pathological dermal fibrosis

Dr. Ryan Moseley, Director & Reader (CITER), Cardiff University, UK

Title: Negatively charged microspheres: wound conditions tailored therapy

Dr. Vladimir Ritter, CEO and CTO, Polyheal, Israel

Title: Reconstruction to regeneration: Beginning of a new era in the wound management

Dr. Sandeep Shrivastava, Director & Chairman, Datta Meghe Institute of Medical Sciences, India

Title: Nanotechnology based therapeutic interventions in wound healing

Dr. Alexander M. Seifalian, Director and CEO, The London BioScience Innovation Centre, UK

Title: Minimal invasive surgery in infected diabetic foot ulcer, a case study

Dr. Mogan Naidu, Founding Chairman, Malaysian Diabetic Limb Salvaging Society, Malaysia

Title: Bioptron hyperpolarized light (HPL): Advancement of bioptron vertical linearly polarized light (VLPL) in the treatment of skin & chronic wounds

Dr. Jasmina Begic, Sarajevo University Clinical Center, Bosnia and Herzegovina

Title: TRPV4-TAZ signaling in matrix stiffness- and TGF β 1-induced epithelial-mesenchymal transition

Dr. Shaik O. Rahaman, Assistant Professor, University of Maryland, USA

PRELIMINARY TENTATIVE PROGRAM

Thursday, June 14, 2018 | Day 1

08:30-09:00	Registration Desk Opens
Conference Hall	
09:00-09:10	Opening Ceremony
	Introduction
Keynote Forum	
09:10-09:50	Title: Basics of advanced ultrasound wound and skin care: Technologies, devices, science and clinical outcomes Eliaz Babaev Arobella Medical LLC USA
09:50-10:30	Title: Repurposing ingenol mebutate as a novel pharmaceutical therapy for normal and pathological dermal fibrosis Ryan Moseley Cardiff University UK
10:30-11:10	Title: TRPV4-TAZ signaling in matrix stiffness and TGFβ1-induced epithelial-mesenchymal transition Shaik O. Rahaman University of Maryland USA
	Group Photo
	Panel Discussion
Networking & Refreshment Break 11:10-11:30	
Workshop on	
11:30-12:20	Title: Qoustic wound therapy system Eliaz Babaev Arobella Medical LLC USA
12:20-13:10	Title: Tube-Evac device is the new standard of care for surgical drains Vance Shaffer Tube-Evac USA
	Panel Discussion
Lunch Break 13:10-14:10	
14:10-15:00	Title: A workshop on PRP in wound management - STARS technique Chandrashekar Mahakalkar Datta Meghe Institute of Medical Sciences India
	Session Introduction
Major Sessions: Wound and Wound Care Wound Healing and Tissue Repair Wound Care and Ulcers Wound Care and Nursing Burns and Advanced Wound Care Advances in Skin & Wound Care Skin and Wound Healing Wound, Ostomy & Continence Nursing Stem Cells & Tissue Regeneration Wound Care Management & Therapies	
Session Chair: Eliaz Babaev Arobella Medical LLC USA; Ryan Moseley Cardiff University UK	
Session Co-Chair: Shaik O. Rahaman University of Maryland USA	
15:00-15:25	Title: Clinical evaluation of a novel nanofiber wound matrix for the treatment of chronic wounds Matthew J. Regulski Wound Institute of Ocean County USA
15:25-15:50	Title: Stimulation of keratinocyte wound healing responses and re-epithelialization by novel epoxy-tiglianes via protein kinase C activation Rachael L. Moses Cardiff University UK

15:50-16:15	Title: Blue light phototherapy for treatment of chronic skin conditions
	Matthias Born Philips GmbH Innovative Technologies Aachen Germany
Panel Discussion	
Networking & Refreshment Break 16:15-16:35	
16:35-17:00	Title: A novel approach to intrarectal bowel management systems and fecal incontinence with improved outcomes
	Ashlee F. Garcia Banner Health USA
17:00-17:25	Title: Role of the pharmaceutical device Prisma® Skin in modulating fibroblast functions in vivo
	Antonello Petrella University of Salerno Italy
17:25-17:50	Title: A holistic approach to patients with chronic wounds – an example: A patient with non-insulin dependent diabetes mellitus with a diabetic foot ulcer for the past 15months
	Jassin Hamed University AlAin UAE
17:50-18:15	Title: Cell therapy in orthopaedics and neurology
	Somy Sabbaghan, Himanshu Bansal Revita Lifesciences India
Panel Discussion	
Friday, June 15, 2018 Day 2	
Conference Hall	
Keynote Forum	
09:00-09:40	Title: Nanotechnology based therapeutic interventions in wound healing
	Alexander M. Seifalian The London BioScience Innovation Centre UK
09:40-10:20	Title: Reconstruction to regeneration: Beginning of a new era in the wound management
	Sandeep Shrivastava Datta Meghe Institute of Medical Sciences India
10:20-11:00	Title: Minimal invasive surgery in infected diabetic foot ulcer, a case study
	Mogan Naidu MediAsia Malaysia
Panel Discussion	
Networking & Refreshment Break 11:00-11:20	
11:20-12:00	Title: Negatively charged microspheres: Wound conditions tailored therapy
	Vladimir Ritter Polyheal Ltd Israel
Workshop on	
12:00-12:50	Title: Biopton hyperpolarized light (HPL): Advancement of biopton vertical linearly polarized light (VLPL) in the treatment of skin & chronic wounds
	Jasmina Begic Sarajevo University Clinical Center Bosnia and Herzegovina
Lunch Break 12:50-13:50	
13:50-14:40	Title: Updated protocols for safer solutions with a new indwelling bowel management system
	Ashlee F. Garcia Banner Health USA
Session Introduction	

Major Sessions: Wound Care and Ulcers | Wound Care and Treatment | Wound Healing and Regenerative Medicine | Wound and Pain Management | Wound Care and Diabetes | Wound Care and Infection Control | Wound, Ostomy & Contenance Nursing | Wound Care & Dressing | Wound Care Products | Wound Care & Lymphedema

Session Chair: Alexander M. Seifalian | The London BioScience Innovation Centre | UK; **Jasmina Begic** | Sarajevo University Clinical Center | Bosnia and Herzegovina

Session Co-Chair: Sandeep Shrivastava | Datta Meghe Institute of Medical Sciences | India

14:40-15:10	Title: Puraply Versus High Osmolarity Surfactant (Blastx) Matthew J. Regulski Wound Institute of Ocean County USA
15:10-15:40	Title: Successful replantation of an amputated penis: A case report and review of the literature Omar Riyach University hospital HASSAN II Morocco
15:40-16:10	Title: Enhancing wound healing by copper oxide impregnated wound dressings Gadi Borkow MedCu Technologies Ltd Israel
Panel Discussion	
Networking & Refreshment Break 16:00-16:30	
16:30-17:00	Title: Development of new global partnerships through the LIMPRINT study Christine Moffatt University of Nottingham UK
17:00-17:30	Title: Management of keloid scars: Surgical versus medical therapy Abdulhadi Jfri McGill University Canada
17:30-18:00	Title: GRK2 regulates mitochondrial bioenergetics and impairs myostatin-mediated autophagy in C2C12 cells Leandro Henrique Manfredi University of São Paulo Brazil
Poster Presentations	
PP01	Title: Liver injuries: Effects of various biomaterials Dolores Cejalvo-Lapeña Universidad de Valencia Spain
PP02	Title: Repairing renal injuries with cyanoacrylates Dolores Cejalvo-Lapeña Universidad de Valencia Spain
PP03	Title: Wound infection and limited access dressing Pramod Kumar King Fahad Central Hospita Saudi Arabia
PP04	Title: Investigation of the effects of systemic isotretinoin treatment on retinal nerve fiber layer and macula Ugur Yilmaz Pamukkale University Turkey
PP05	Title: Aseptic technique for a wound dressing procedure Theresa Swanson South West Healthcare Australia
Panel Discussion	
Award Presentations, Thanks Giving & Closing Ceremony
